The MDB has taken note and is disturbed by the allegations levelled against its Executives that has been sent out to various organisations through electronic communication. This was brought to the attention of the Board through a whistle-blower account.

As an organisation that promotes a safe working environment for its employees, the MDB will not turn a blind eye on any form of allegations levelled against any of its Executives. It however has to approach it within the policy prescripts that govern such matters and quickly do an internal due diligence to ensure that the rights of the whistle blower and the rights of the accused are not trampled upon, due diligence is critical to avoid the Municipal Demarcation Board to be exposed to any allegation nor to encounter any undue delays.

This matter is receiving urgent attention. As such, internal investigations are currently underway to establish the veracity of the allegations. Further information will be provided once the investigations are concluded.
